Wasteflo range

Our Wasteflo range offers a variety of products to simply and efficiently remove waste water from your home or commercial building, allowing you to create a bathroom, wet room, kitchen or utility room anywhere a connection using gravity to the main soil/waste pipe is not possible.

The range consists of macerators, a lifting station and a boiler condensate pump. All products are very simple to install and are designed to be compact, quiet in operation, and accessible for clean and easy maintenance. Wasteflo provides the clean and simple way to remove waste water.

The clean and
simple way
to remove
waste water

Wasteflo Features and benefits

Wasteflo offers a range of waste water removal products that allow you to create a bathroom, wet room, kitchen or utility room anywhere in your home or commercial building. The range consists of Macerators, Lifting Station and a Condensate Pump. All products are designed to be compact, quiet and simple to install.

- Flow rates up to 120 litres/minute
- Connects to 22, 28 and 32 mm outlet
- Powerful 500 watt motor
- Quiet operation

Quality

- ISO 9001:2015
- BS EN 60335 compliant
- BS EN 12050-3 compliant
- CE compliant
- LGA tested

Reliability

- 2 year guarantee
- Durable high gloss polypropylene
- Easy access & servicing – no need to remove the appliance
- Service kit available

Good to know

Wasteflo products are supplied pre-wired for ease of installation. Featuring a slimline design, Wasteflo products are easy to install and supplied with a multi purpose adaptor allowing the unit to connect to existing pipework.

Stuart Turner also have a network of service engineers available to support Wasteflo products.

Wasteflo Removable cassette system

This innovative removable watertight cassette system houses the electrical and mechanical components. It allows clean and easy access without having to remove any pipework or the appliance when servicing or maintaining the unit. The slimline design and low noise levels mean that our Wasteflo products can be located anywhere in your property.

When do you need a macerator or a lifting station?

A Macerator or Lifting Station enables the installation of a new kitchen, bathroom or utility room in any situation where it is either impractical or impossible to install conventional gravity based soil and waste discharge pipework.

Macerator

Super slim Wasteflo macerators fit neatly behind the WC. They reduce waste to a liquid form and pump it away to the soil pipe.

Lifting station

Effectively lifts waste water where gravity flow is insufficient, allowing a shower room, kitchen or utility room to be added where the new facility would be lower than the main drain.

Wasteflo Pump applications

Create a bathroom, kitchen or utility room anywhere with Wasteflo. This diagram is intended for general guidance only and individual site conditions will vary.

This application table is a general guide only and individual site conditions may vary. For advice or technical assistance in choosing the right pump, please contact **TechAssist on +44 (0) 800 31 969 80**
