OPENWATERHEATER
The perfect flow in combination with open water heaters.

EASYEXCHANGE
The aerator is easy to install and de-install using just a coin.

EASYDOCK
Guaranteed easy retraction and smooth docking for your pull-out spray head, every time.

STOPVALVE
Includes a dishwasher shut-off valve on the faucet body.

REALSTEEL
Made of solid stainless steel, a robust material with anti-bacterial properties.

SPEEDCLEAN
Remove limescale with a single wipe.

PREWINDOW
To open the window, just lift up the faucet and lay it flat on the surface.

EASYTOUCH
Just touch the faucet at any point with your wrist, elbow or just your fingertip to turn the faucet ON and OFF.

FORWARD ROTATING LEVER
Forward rotating lever prevents the lever hitting the backsplash.

COMFORTHEIGHT
Height of the spout allows easy filling of large pots.

FOOTCONTROL
Just touch the bottom side of the cabinet with a gentle tap of your foot to turn the faucet ON and OFF.

ZERO (Lead+Nickel Free)
No contact of water with lead and nickel due to isolated inner water ways.

ENHANCED WATER
Superior-quality water directly from the kitchen faucet – saving time, money and the environment.

PULL-OUT MOUSSEUR
Increases the operating radius of your faucet.

GROHFLEXX
With flexible, hygienic GrohFlexx kitchen santoprene hose.

PULL-OUT MOUSSEUR SPRAY
Increases operating radius of the faucet and offers different sprays.

PROFESSIONAL-SPRAY
Features a 360° spring arm and easy switching between the spray and mousseur.

EASYDOCK M
Integrated magnet for seamless docking of the spray head.

CHILDLOCK
Integrated safety mechanism prevents unintentional opening by young children.

PULL-OUT DUAL SPRAY
Increases operating radius of the faucet and offers easy switching between mousseur and the spray.

AQUAGUIDE
Variable spout end for adjustment of water flow.

TITANIUM INSIDE
All boilers in our GROHE Red collection are made from titanium.

SWIVELSTOP
Limited turn angle prevents flooding.

GROHE SILKMOVE
Smoothest handling for effortless precision and ultimate comfort for a lifetime.

GROHE COOLTOUCH
No scalding on hot surfaces thanks to 100% GROHE CoolTouch.

GROHE ECOJOY
Save precious resources and enjoy 100% water comfort.

GROHE SILKMOVE ES
The intelligent combination of energy saving and effortless water control.

GROHE STARLIGHT
Made-to-last surfaces ranging from precious matt to shiny like a diamond.

HANDS ON **FEATURES**

Accommodating your every wish and desire, GROHE water systems and kitchen faucets include user-centric features and ingenious details that make all the difference. More choice, more comfort and more flexibility; which is why our products are such a pleasure to use.

Welcome to the smartest product portfolio in the industry,
where kitchen taps, water systems and consumer-oriented
features combine with outstanding design. Enjoy the
ultimate GROHE kitchen experience.

Dear customers,

The kitchen is the heart of the home. It's where the family gathers, friends connect and experiences are shared. At GROHE we use our unique craftsmanship to create smart technology to effortlessly deliver water to your kitchen to cook, clean, drink and enjoy. We are dedicated to creating elegant and intelligent products that combine design, quality, technology and sustainability. With our most complete kitchen portfolio ever, we are driven by our goal to be at the heart of your home.

A perfect example of our ethos is our GROHE water systems. Our award-winning design reflects our heritage as skilled and innovative craftsmen. At the slightest touch of a button or gentle twist of the tap, GROHE Red and Blue systems provide you with the purest filtered water, either hot or cold. Delivering fresh water into your glass or cup eliminates the need for bottled water or kettles, creating a more sustainable way to enjoy water in your life.

We know that creating fantastic food requires technology which is reliable and functional: technology with unique features and intelligent design reflecting your personal taste. This understanding has allowed us to develop GROHE's market-leading Premium Lifestyle Collections,

with clever and beautiful features like our GROHE Easytouch or GROHE Foot Control products, helping to liberate your hands in the kitchen. Or our distinctive Essence Professional Colour designs, all created to encourage your culinary creativity, another addition to our comprehensive kitchen portfolio.

A passion for taste is central to what you create in the kitchen, at GROHE we aim to complement this with our passion for delivering the very best craftsmanship and engineering expertise in every one of our products. We credit this approach for the success of our Performance Lines, which deliver multiple design combinations, versatile height and installation options to allow you to create kitchens that are safer, easier and more enjoyable to use.

This unique combination of expert craftsmanship and forward-thinking innovation means we can deliver the products you need to build kitchens that are practical, reliable and beautiful: the hallmark of GROHE.

A handwritten signature in black ink, appearing to read 'J. Rauterkus', is displayed on a light blue rectangular background.

Yours, Michael Rauterkus
Chief Executive Officer
Grohe AG

PURE FREUDE AN WASSER.

Life-giving, universal, joyful – water itself is the source of inspiration for the whole of our distinctive product portfolio.

Each of these products is always based on our four core values: Quality, Technology, Design and Sustainability. Balancing these in everything we do, allows us to deliver unrivalled water enjoyment to our customers.

QUALITY

GERMAN PERFECTIONISM INSPIRES ULTIMATE CUSTOMER CONFIDENCE.

We strive for an excellence that goes way beyond the surface of our products. In fact, from design to production and customer service we aim for nothing less than perfection at every stage. Our history of great German engineering, rigorous internal tests and numerous external certification processes are what gives our customers complete confidence in a name they can trust.

TECHNOLOGY

MASTERING WATER THROUGH TECHNOLOGY.

In our relentless search for technological innovation we work to integrate the latest digital advances, creating smart solutions that enhance our customers' enjoyment of water. Our in-house experts harness the power of water to enhance the experience of our customers every day – the moment of truth, for our products and brand.

DESIGN

SIGNATURE ELEMENTS STYLED TO PERFECTION.

An empathetic and intuitive design language offers us the opportunity to create products that feel as if they were designed just for you. This unique GROHE DNA that is both ergonomic and visually distinctive has earned us numerous design awards: world class references are testimony to our world-wide recognition.

SUSTAINABILITY

ENSURING WATER ENJOYMENT FOR GENERATIONS TO COME.

Water is as essential as the air that we breathe, one more reason why we are so passionate about it. To be able to offer "Pure Freude an Wasser", not just to today's consumer but for generations to come, we offer sustainable product solutions like GROHE Blue, GROHE EcoJoy and GROHE SilkMove ES, and we demonstrate through our Sustainability Report and Sustainability accolades that we have made a serious corporate commitment to protecting the planet.

Except for low pressure variants and GROHE EasyTouch faucets.

GROHE EASYTOUCH

Kitchens are hands-on places, where multi-tasking is a must. Why not make life easier for yourself with a GROHE touch-activated faucet? We've developed a choice of two innovative solutions that let you control the flow of water without using your hands, making your kitchen more hygienic, convenient and instinctive to use. GROHE faucets can be activated with a simple touch of the wrist or elbow. Leave your hands free and keep your faucet sparkling clean. Change the way you control your kitchen with just a single touch.

The kitchen is the heart of your life at home – and let's face it, sometimes life gets messy. With GROHE's innovative EasyTouch faucets sticky fingers won't slow you down and cross-contamination is a thing of the past. Hidden GROHE technology lets you start and stop the flow of water with a single tap of your arm, wrist or the back of your hand, anywhere on the spout. No more greasy fingerprints or struggling to turn a lever with your elbow.

EASYTOUCH

Just touch the faucet at any point with your wrist, elbow or just your fingertip to turn the faucet ON and OFF.

TYPES OF SPOUTS

Our range of spout options let you combine comfort and convenience with great design flexibility. Our spouts come in a variety of heights, from a compact low spout for small spaces to a high spout perfect for filling pots, as well as in a choice of U, C or L-shape to perfectly suit your style. Need even more flexibility? Our spouts that swivel or feature pull-down spray heads offer extra reach, power and performance for busy kitchens.

POWERFUL SPRAY FUNCTIONS

Get some power behind your daily tasks with GROHE's range of professional and pull-out sprays. Enjoy an increased operating radius for maximum convenience, and on many models you can also switch between two spray functions for even greater flexibility. The GROHE EasyDock function with glideflex hose ensures the spray docks smoothly back into position, and on some professional spray models GROHE EasyDock M uses a magnet to guide the spray head back into place effortlessly, every time. When your work is done enjoy the easy-clean advantage of GROHE's SpeedClean feature - available on all pull-out sprays with two spray functions - that lets you clean limescale from the head with a simple sweep of your finger.

GROHE **SUPERSTEEL**

SUPER LOOKS – SUPER RESISTANCE

To fulfil its purpose, a kitchen fitting needs to be resistant. GROHE's SuperSteel surface more than fits this bill. In fact, the innovative PVD coating is ten times more scratch-resistant than chromium. The silk-matt stainless steel surface not only looks unbelievably good, but also demonstrates its resistance in daily use. Fingerprints on the surface? Not here. And nowhere on the surface for microbes and bacteria to lurk either, which greatly reduces the microbial count. So the surface of the fitting stays hygienically clean, day after day.

GROHE PVD

UNRIVALED HARD AND SCRATCH RESISTANT.

MADE-TO-LAST SURFACES RANGING FROM PRECIOUS MATT TO SHINY LIKE A DIAMOND.

GROHE faucets are made to look as beautiful decades on as they did the day you first fell in love with them. The special recipe to success lies in our long-lasting surface quality. GROHE uses state-of-the-art technology to deliver exceptional quality finishes. The physical vapour deposition (PVD) process ensures that the surface composition is three-times harder, delivering glistening gold or sophisticated stainless-steel finishes. As well as being harder, the surface is also ten times more scratch resistant, so it can be cherished for a lifetime.

GROHE **PREWINDOW**

Having your sink area in front of a window provides you with a view to soothe and inspire you while preparing food or washing dishes. With the GROHE PreWindow solution you can open and clean your window easily. Just lift up the tap and lay it flat on the surface - job done.

Available on following lines:
Eurodisc Cosmopolitan, Concetto, Eurostyle Cosmopolitan,
Eurosmart Cosmopolitan

GROHE OPENWATERHEATER

In kitchens that are a long way from the central hot water supply, small boilers directly under the sink are really common. In these specific cases a special kitchen mixer is required. Hot water can run immediately and this solution offers you the perfect flow in combination with open water heaters.

Available on following lines:

Zedra, Minta, Europlus, Eurodisc Cosmopolitan, Concetto, Eurostyle Cosmopolitan, Eurosmart Cosmopolitan

GROHE **ZERO** (Lead+Nickel **FREE**)

No contact of water with lead and nickel due to isolated inner water ways.

GROHE BLUE HOME

YOUR PRIVATE WATER SOURCE

CHILLED AND SPARKLING

Do you like your chilled drinking water still or sparkling? Somewhere in between? With GROHE Blue the choice is all yours. First the water is filtered to remove impurities. Then it is chilled to create that mountain-fresh taste. And when you turn on the tap a simple twist of the handle lets you choose whether still, medium sparkling or sparkling water flows into your glass.

Fresh water tailored to your exact taste, flowing straight from the faucet – it's as easy as 1, 2, 3. While the right-hand lever on a GROHE Blue faucet mixes hot and cold water as normal, a handle on the left serves the chilled and filtered water and controls how sparkling your drinking water is, from perfectly still to bursting with bubbles.

An LED indicator in the lever changes colour to let you see your chosen carbonation level at a glance – still, medium sparkling or sparkling – as well as telling you when the filter capacity has fallen below 10% and will soon need to be changed. The water temperature can also be set to your personal taste, individually regulated to between 6°C and 10°C.

FIND OUT THE WAYS IN WHICH GROHE BLUE BRINGS BENEFITS TO YOUR HOME:

Imagine drinking water fresh from a mountain spring – life-affirming, thirst-quenching, and absolutely pure. Now imagine the same health-giving, untainted water flowing directly from your own kitchen faucet. The GROHE Blue water system makes this a reality in your own home. It transforms ordinary tap water and filters it, leaving a taste as fresh and pure as nature intended.

Whatever your idea of perfect water refreshment – filtered, chilled, sparkling or all three – GROHE Blue brings it to you straight from the faucet.

Separated inner water ways for unfiltered tap and filtered drinking water.

TASTE

GROHE's filters remove impurities to give water a pure, fresh taste that even beats bottled water

HEALTH & WELLNESS

removing even small particles but leaving behind precious minerals, GROHE Blue makes it easy to embrace the health-giving properties of water

CONVENIENCE

no more carrying heavy bottled water home

SUSTAINABILITY

kinder to the environment, with less waste on packaging and processing compared to bottled water

Spout, turnable by 150°

Hygienic mousseur with two outlets

Forward rotating lever with knurled structure for better grip

Cartridge with SilkMove technology for normal tap water

**STILL, MEDIUM OR SPARKLING:
THE CHOICE IS ALL YOURS**

How sparkling do you like your water? It's all a matter of taste. GROHE Blue Home has a simple and intuitive mechanism that lets you carbonate your drinking water at the touch of a button. Deliciously cool filtered water, just the way that you – and all your family – like it.

Still waters run deep. If you prefer your water cool and still, nothing could be simpler: just push the top button. The LED lights up blue and your glass fills with pure refreshment.

Sparkling – but not too much? More of a medium sparkling? Coming right up. Press both buttons in sequence – the LED lights up turquoise – to produce a finely pearled stream of water.

Sparkling water, alive with bubbles. If that's your idea of thirst-quenching heaven, just press the lower button – the LED lights up green – for your perfect glass of water.

HEALTHIER LIVING FROM THE SOURCE

Water is the most precious and fascinating element on earth, the source of life itself, with proven benefits for our health, wellbeing and even appearance. The „Deutsche Gesellschaft für Ernährung“ (German Nutrition Society) recommends that we drink at least two litres of water each day.

Many of us opt to buy bottled water, either because it tastes better than tap or because we believe it is healthier than tap water. However scientific analysis has proved that, due to strict regulations and controls on our drinking water supplies, tap water is at least as good as bottled.

Another reason people spend a small fortune on bottled water is the preference for sparkling water. Now GROHE Blue delivers all the benefits of bottled water, straight from the tap. It provides a great taste, plus the option of sparkling water too. This makes GROHE Blue the ultimate solution, not just for good health but for great taste as well.

CONVENIENCE ON TAP

Think for a moment about the energy and hassle it takes to keep a supply of bottled water on hand at home. You have to buy it from the supermarket, then lug it from the car to your house. Once there you have to find space to store it out of sight. And when you've finished it you have to return or recycle the plastic bottles, before starting the whole process again.

By installing a GROHE Blue system in your kitchen you can say goodbye to the hassle and inconvenience of bottled water with no compromises on taste or health. Just turn the tap and enjoy an unrivalled refreshment experience. What could be easier than that?

WATER NEEDN'T COST THE EARTH

It takes an astonishing 7 litres of water to produce a single litre of bottled mineral water. Not to mention the energy used, CO2 emissions created and the 1.5 million tons of plastic packaging used by the industry each year.

At GROHE we are always working to secure the future of water, our most precious natural resource. This is the driving force behind the development of such products as GROHE Blue, which help people manage their water and energy consumption with ease.

THE MAGIC IS IN THE FILTER

For our GROHE Blue system we have worked with BWT, Europe's leading filtered water professionals, to ensure that our system produces an unparalleled, refreshing drinking experience. Our standard high performance S-Size filter comes with every GROHE Blue Home starter set. It uses a five-step filtration process to remove even the smallest particles from tap water, while leaving behind all the important minerals that benefit your health.

In addition, two other filters available.

If you live in a soft-water area, the activated carbon filter is right for you. It improves the taste but leaves the carbonate levels in the water untouched.

For the best taste and health benefits, the magnesium+ filter is the ideal choice. It adds up to 35 mg magnesium to each litre of water, helping you get enough of this essential mineral while delivering the best tasting tea and coffee possible.

For more information about our different filters, visit: grohe.com

CLEAN YOUR WORKTOP

Filtered water heated to 100°C no need for
the clutter of a kettle. GROHE Red fulfils all
your water needs from a single faucet

A SINGLE SIMPLE SOLUTION

TASTE THE DIFFERENCE

Use GROHE Red in combination with a GROHE Blue filter and get fresh just-filtered water served kettle-hot. Enjoy your tea and coffee with a great clean taste. The boiler where the water is heated is made of titanium, which does not impart any metallic taste to the water. It is also highly resistant to corrosion and limescale build-up, meaning a consistently great taste over the lifetime of the faucet.

DECLUTTER YOUR KITCHEN

What busy kitchen doesn't need more worktop space? With GROHE Red you can clear the clutter of your kettle from the worktop and get both hot and cold mixed water plus kettle-hot water, all from the same faucet. The system's compact boiler is designed to fit discreetly below the sink, leaving you more counter space and a cleaner, clearer-looking kitchen.

SAVE PRECIOUS TIME

Never wait for a pot of boiling water or a much-needed cup of tea again. We all lead busy lives, and time spent waiting for water to boil all adds to the time spent on chores rather than relaxing. Whether it's cooking pasta, blanching vegetables or preparing a baby's bottle, GROHE Red cuts out the waiting time with kettle-hot water ready for you, the instant that you want it.

SAVE WATER, SAVE ENERGY

Think for a moment about how often you boil and reboil the kettle. How often do you actually use all the water? With GROHE Red you only take the hot water you need, saving precious water and time. In combination with the large GROHE Red boiler, which can replace a warm water outlet in the kitchen, the system saves even more water. The large GROHE Red boiler delivers the heated water for both kettle-hot water and also warm water for the sink mixer, instantly. No more wasted water while you wait for it to reach optimum temperature.

KETTLE-HOT WATER ON TAP

How many times a day do you fill and boil the kettle? From the first cup of tea in the morning to a late night pasta dinner, we boil up water countless times, often heating far more than we need. With GROHE Red you have water heated to 100°C ready when you want it. It's convenient and saves water and time.

TECHNOLOGY YOU CAN TRUST

Cooking, cleaning, sterilising... not to mention those refreshing cups of tea and coffee. There are so many things we use kettle-hot water for every day of our lives, why wouldn't we want it to be as quick, easy and economic as possible. The GROHE Red system lets you enjoy the convenience of kettle-hot water instantly, without the clutter of a kettle and with many additional benefits too. Enjoy a cleaner taste that is more economical than a kettle and wastes less energy too, all on tap, any time. GROHE Red lets you streamline your kitchen, with three great designs to choose from and the convenience of having all your kitchen water demands met in one sleek faucet.

GROHE COOLTOUCH

GROHE CoolTouch technology offers you total peace of mind. It insulates the faucet so well that you can touch the spout without any risk of scalding, making it far preferable to a kettle in homes with young children.

CHILDLOCK

Safety is paramount in a family kitchen. That's why GROHE Red faucets are designed with a child lock that makes scalding practically impossible: for the boiling water to flow, you must first unlock with the upper push button before the lower push button can be used.

GROHE RED TITANIUM BOILER

All boilers in our GROHE Red collection are made from titanium. Unlike stainless steel and copper, two metals traditionally used for boilers, titanium is highly resistant to corrosion and limescale build-up – ensuring perfect performance over a lifetime. It also guarantees that your water is free of any metallic taste.

GROHE

R E D

GROHE Red boilers* are cost and energy efficient – their improved design and insulation mean they achieve an A rating for their efficiency.

Going on holiday? Then simply switch the boiler to holiday mode, making sure any water is only heated to 60°C for further energy savings.

* GROHE Red Boiler M size:
Energy efficiency class A, heat losses max. 14 Wh
GROHE Red Boiler L size:
Energy efficiency class A, heat losses max. 15,9 Wh

L size boiler for 5.5l
of boiling water at once

M size boiler for 3l
of boiling water at once

What is more, the titanium used to make the water tank means an incredibly durable boiler that won't corrode.

GROHE EUROSMART

Create a kitchen that the whole family can take pleasure in with the new GROHE Eurosmart. Effortless control, unrivalled performance and temperature-safe operation combine in a sleek contemporary design. The solid cylindrical body, the elegant curve of the spout – the new Eurosmart range looks great while offering huge versatility. In a variety of two heights, with a useful swivel spout and the option of our water-saving GROHE EcoJoy feature or the energy-saving cold-start cartridge GROHE SilkMove ES, Eurosmart is bound to fit in with your busy family kitchen.

Take your kitchen to the next level with the new Eurosmart pull-out kitchen faucet. Equipped with the basic features of Eurosmart and adding a functional pull-out dual spray, Eurosmart pull-out will help you do your daily kitchen tasks with just tip of your finger. The pull-out dual spray gives you a greater operating radius of the faucet while offering easy switching between two sprays. The EasyDock mechanism guarantees easy retraction and smooth docking for your spray head, every time. Eurosmart pull-out comes with a shiny chrome surface or a matt SuperSteel finish to fit your kitchen perfectly.

GROHE BAULOOK & BAUEDGE

Stunning simplicity defines the GROHE Bau. The cylindrical spout creates a lightness of design ideal for architectural schemes without compromising performance. The unique loop-shaped lever of BauLoop and the lozenge-shaped lever of BauEdge simplify handling and are extremely easy to operate.

A GLOBALLY CONNECTED COMPANY

GROHE IS PART OF LIXIL – A GLOBAL LEADER IN THE HOUSING AND BUILDING INDUSTRY.

Beginning back in early 20th century Japan, LIXIL is today the most comprehensive company in our industry, with a unique portfolio spanning everything from technologies that revolutionize how we interact with water, to a full lineup of interior and exterior materials and products for houses and major architectural projects. Operating in 150 countries, LIXIL companies design and manufacture products that are used by more than a billion people around the world every day.

The world is changing rapidly, and LIXIL companies are helping to shape it. Across our brands and technologies, we design and manufacture tomorrow's living solutions, today. From developing smart innovations in people's homes and offices, to redefining the world's most famous city skylines, LIXIL products are transforming the spaces in which we all work, learn, travel, relax, and live.

Alongside GROHE in LIXIL's family of world-class brands are American Standard, INAX, DXV by American Standard and Permasteelisa. Combined, our brands make us number one in faucets and plumbing-related products worldwide and Japan's premier provider of housing products. We're leading the way in many other areas around the world, thanks to our shared focus on creating innovations that genuinely improve people's lives.

Together we're stronger. Combining our GROHE expertise as a world leader in sanitary fittings with the unique technology and insights from LIXIL's other Water Technology brands, GROHE now offers complete bathroom solutions, featuring innovative products like shower toilets and SmartControl showers, alongside revolutionary technologies such as AquaCeramic sanitaryware that stays clean for 100 years. Beautiful, functional and reliable, LIXIL's products and solutions are changing the way people live, all over the world.

Together, we share a powerful vision of a better tomorrow, for our customers and for the world. As a truly global manufacturing company, we know that we have an important part to play in securing the future of our planet. We're leading the way in areas such as energy efficiency and water saving technology and aim to achieve a net zero environmental footprint by 2030. We believe everyone should have access to clean and safe sanitation, and are committed to using our expertise to help make this possible.

Together we're creating the future of good living for everyone, everywhere.
