

STUART

Water Conditioner CM

WRAS Approved and developed specifically for commercial and industrial applications, the Stuart Water Conditioner CM combines a unique catalytic alloy core with an array of powerful magnets to effectively prevent hard limescale deposits from forming.

Available in a range of sizes optimised to meet the flow rate requirements of commercial properties, industrial plant and processes, they offer a maintenance free solution and are simply installed in-line with the existing pipework.

10 YEAR
GUARANTEE

Features

- Prevents limescale build up – maximises appliance efficiency and reduces energy costs
- Reduces maintenance requirements, minimising costs and maximising up-time
- Maximum pressure drop 2%
- Compact design – easy to install in any orientation
- Environmentally friendly, does not use chemicals or salts
- Treated water is safe to drink
- No electrical power required
- 10 year guarantee
- Available in a range of sizes and flow rates

Application

- Available in a range of sizes optimised to meet the flow rate requirements of residential properties
- Installed inline with the incoming mains water supply just after the stopcock
- Stuart Water Conditioner products can play an effective role in achieving compliance with Part L of the Building Regulations

*Model selection must be based upon actual measured flow and is essential for effective operation.

Model	Water Conditioner CM23-45 44735
Guarantee	10 year
Approvals	CE
Type	Catalytic-magnetic
Optimum flow*	23-45 l/min
Maximum pressure	16 bar
Housing	Stainless steel
Connection type	BSP Male
Connection size	3/4 "
Typical noise	Silent
Width	400 mm
Diameter	60 mm
Weight	4.9 Kg

Model	Dim. 'A'	Dim. 'B'
CM23-45	400 mm	60 mm
